It's high time, we all direct our efforts toward quality education.

Hon. Shri. Prakash Javadekar
UNION MINISTER
Ministry of Human Resource Development
Government of India

Preamble

With the advent of liberalization, privatization and globalization, there is radical transformation in the Education system in India. However, Quality of Education and training being imparted in Technical and higher Educational system varies from excellent to poor, with some institutions comparing favorably with the best in the world and others not able to achieve even minimum standard of Quality. For improving quality and facilitate mobility of our students across the globe, Government of India took some steps. In 1986, Government of India came out with National Policy on Education. As a follow up of this policy statement, Government of India established two separate bodies namely National Board of Accreditation (NBA) through All India Council for Technical Education (AICTE) and National Assessment & Accreditation Council (NAAC) through University Grants Commission (UGC) in the year 1994. Both the bodies provide accreditation to those institutions practicing prescribed Quality Assurance System and achieve specified level of Quality as per the criteria defined. While NBA focuses largely on the parameters that communicate the strength & weakness of a program, NAAC concentrates on Institutional Accreditation. NBA accreditation is also made mandatory for the Technical & higher education institute. India is now a member of the elite 17-member group of permanent signatories. Washington Accord is an international accreditation agreement for Engineering Degrees among prominent nations of the world. The agreement is aimed at promoting mobility and Quality Assurance across international boundaries. The Accord requires member nations to ensure that the highest Quality Assurance standards in line with ABET are implemented in their technical and Technical & Higher education programs. Government of India also conceived Technical Education Quality Improvement Program (TEQIP) to improve Quality of Technical Education suiting to current National & Global requirements. The present scheme of NBA accreditation is outcome based unlike in the past. NBA now follows the Outcome Based Education (OBE) model for accreditation of programmes offered by institutions. Once a program is accredited by NBA, it will have global acceptability and promote students mobility along with enhancement in employability. The purpose and impact of accreditation goes far beyond Quality Assurance of an Institution/programme. Benefits of accreditation for institutions include ease of funding from various bodies, change of perceptions among all stakeholders, improvement of student enrollment both in terms of quality and quantity.

This workshop is conceived to facilitate understanding of what constitutes Program specific objectives, Program Outcomes and how to formulate and achieve these. So, let's join, "Movement for Quality Education"

Significance

This workshop is unique in itself, because this workshop is starting with ABET as the origin of NBA to Bloom's Taxonomy, including Rubrics Development, e-SAR preparation, orientation and the continuous development of and Quality Outcome and NBA Quality Assessment. In other words, this workshop is focusing on all facets of the NBA Assessment and Evaluation.

Objectives

- To familiarize participants with the concept of Washington Accord and accreditations for quality education
- To know various accreditations worldwide as ABET and others with their significance
- To understand new form and methodology of NBA accreditation process as Outcome Based Accreditation Body.
- To get insight and working experience on Rubric development and evaluation pattern
- To know from NBA members how to conduct NBA process cycle in better interests of the institutes and learn from experiences
- To enhance the significance of pedagogy methodologies like Bloom's Taxonomy.
- To get introduced with the tools for data analytics and e-SAR filling

Coverage

- Washington Accord, Accreditations and Quality Standards: Methodologies of ABET and other accreditations.
- NBA Accreditation: e-SAR and accreditation process
- NBA: Observing Outcome Based Education
- Question and Answer Session
- NBA: Development of Rubrics and Evaluation pattern Rubric development workshop
- NBA e-SAR: Case studies and Learning from experiences
- Session on Education Tools and Bloom's Taxonomy

From the desk of
Executive Director,
Zeal Education Society, Pune

Mr. Jayesh Katkar

It is my pleasure to invite you to attend the national two days residential workshop on National Board of Accreditation (NBA) on 30th & 31st October 2017 at JW Marriott Senapati Bapat road Pune.

In India the whole education edifice is rest on two things one is on access other is on quality. Accreditation is a seal of approval of quality.

NBA accreditation is tool for continuous improvement of programme outcome. This accreditation system benchmarks with the global best practices in accreditation like ABET and many more at the same time it is squarely relevant to the Indian education system. This accreditation reposes faith in the institutes as the assessment and evaluation would be undertaken by truly competent peer team and is completely transparent and fair. It is an unfailing system of surveillance on corrupt practices in education system and purely provides students centric system.

Now the question arises how to get fit for the accreditation as it is an extremely daunting task for any institute to quickly prepare on its own for the accreditation. It is also world known fact ***'Rome can not build in one or two days'*** in the sense any transformation is not an instant task. As we feel the burning sensation of this indispensable transformation with a feeling of empathy with the institute like us we intended to organize orientation workshop on NBA accreditation and this two day orientation programme designed. We are roping the best resources as a speaker to provide participants crystal clarity of NBA process which eventually make this process very simple to understand and implement in addition to this we also provide supportive literature in E-format for future references.

The clock would run indeed very fast. So decide now rather today and ginger up your programme key faculty to seize the opportunity and avail the current relaxed conditions before it gets too late to orient about NBA.

Come and join us in such a niche learning platform which would act as a catalyst for transformation process.

"The price of doing the same old thing is far higher than the price of change"

-Bill Clinton
