3. EXECUTIVE SUMMARY

All MBA faculty members were physically present in the Seminar Hall with suitable social distance for the guest session.

The goal of this exercise was to gain a new scientific perspective of the Bhagwat Gita and to grasp the relationship between mathematics and spirituality. The session not only focused on how to learn the Bhagwat Gita in a fresh scientific light, but also on how to help professors grasp Science and Spirituality in tandem.

The obligations and responsibilities of faculty members in regards to life and religion were reviewed during the session. This will increase faculty members' proactivity in implementing Spirituality with management knowledge in the classroom and in real life. ZIMCA faculty members led the discussion.
